Physiotherapy at **Boston West Hospital**

The Physiotherapy Department is staffed by professional and experienced clinical Chartered Physiotherapists. We work to Physiotherapy Chartered Society Standards supporting best practice and will strive to provide the best in patient care.

All physiotherapy patients have a treatment plan established on assessment by their physiotherapist, which is regularly reviewed during the course of physiotherapy treatment.

Self paying patients may refer themselves for physiotherapy. Discharge reports are sent to the patient and the referrer when the patient has completed treatment. Packages of care can be provided for patients with long term rehabilitation requirements.

Private referrals can be sent via the online private referral form.
